An abstract graphic consisting of a thin, curved line that starts as a bright orange on the left and fades into a light gray on the right. Along this curve, there are four small dots: the first is bright white, and the other three are a faint light gray.

01

AI Orchestration & Agent Tooling

Architecting end-to-end AI pipelines and autonomous agents using Claude Code and multimodal vision models. Specializing in structured outputs, Model Context Protocol (MCP) integrations, prompt evaluations, and reducing manual business processes by over 40%.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector and to ensure that the public sector is able to deliver the best possible value for money. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These initiatives have led to a number of changes in the way that the public sector is organised and managed, and to a number of changes in the way that the public sector is funded.

One of the key challenges facing the public sector is the need to improve the efficiency of the public sector and to ensure that the public sector is able to deliver the best possible value for money. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These initiatives have led to a number of changes in the way that the public sector is organised and managed, and to a number of changes in the way that the public sector is funded.
