— CHEER INTELLIGENCE, MADE CLEAR

See the routine. Know what to fix.

Upload a cheer routine and get clear, evidence-backed feedback aligned to IASF and USASF standards—without hours of replay and guesswork.

[Analyze your routine →](#)[Explore a sample report](#)

✓ Free to try ✓ Results in minutes ✓ Your video stays private

Built for the way cheer teams actually train.

IASF ALIGNED USASF ALIGNED VIDEO EVIDENCE COACH-READY

— HOW IT WORKS

From upload to action in three steps.

No inflated dashboards or vague summaries—just the moments that matter, the standard they relate to, and a practical next move.

[Beta Feedback](#)

01 / Upload

Add your routine video

Upload a practice or competition video and choose the applicable scoring standard.

02 / Analyze

AI reviews every moment

CheerCPT identifies skills, technique patterns, scoring opportunities, and potential safety concerns.

03 / Improve

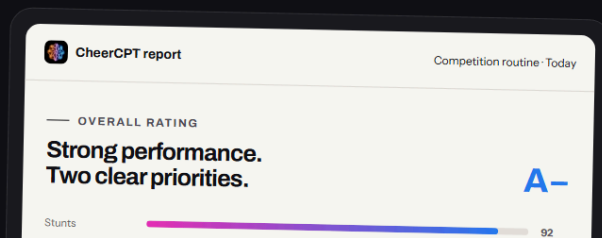

Train from clear evidence

Jump to timestamped clips, review category ratings, and work from focused coaching suggestions.

— WHAT YOU GET

A report you can use at the next practice.

Each finding connects feedback to a moment in the video, so athletes and coaches can review the same evidence together.

- ✓ IASF / USASF category evaluation
- ✓ Timestamped technique and legality flags
- ✓ Focused drills and coaching suggestions
- ✓ Shareable routine history

[Open interactive sample →](#)

00:47 **Technique focus:** Chest position drops during the final tumbling landing; review the clip and assigned landing drill.

— ONE SHARED VIEW

Useful from the mat to the meeting room.

CheerCPT keeps feedback simple enough for athletes and specific enough for coaching decisions.

For athletes

Understand exactly what happened, where it happened, and what to practice next.

[Explore athlete tools →](#)

For coaches

Review routines faster and turn observations into clear, evidence-backed direction.

[Explore coach tools →](#)

For gyms

Keep teams, routine histories, and review standards organized in one place.

Capabilities & Technical Toolkit

Frameworks, platforms, and agentic workflows used to move ideas into execution.

AI & AGENT TOOLING

AI Orchestration

- Claude Code (Opus & Sonnet)
- Model Context Protocol (MCP)
- Google Gemini Multimodal API
- Structured Outputs & Guardrails
- Prompt Engineering & Eval

MODERN FRONTEND

Full-Stack Platforms

- Next.js 16 (App Router) & React 19
- TypeScript & JavaScript
- Chrome Extensions (Manifest V3)
- Tailwind CSS 4 & Shadcn UI
- Node.js & Express Microservices

BACKEND & SECURITY

Databases & RLS

- Supabase (PostgreSQL)
- Row-Level Security (RLS) Policies
- Database Triggers & Views
- Python 3 (ETL, Web scraping, APIs)
- Supabase Edge Functions

AUTOMATIONS & SAAS

Cloud & Delivery

- Amazon Simple Email Service (SES)
- Stripe Subscriptions & Webhooks
- Google Cloud Storage Resumable API
- 15-Minute Cron Automation Engines
- Google Drive & Workspace APIs

**Let's build something extraordinary
together.**

Whether you need to ship a new AI-native application, automate high-friction operational workflows, or turn rough ideas into market-ready software.
